Myrmecological News is published open access under the Creative Commons (CC) license CC BY 4.0, without economic purpose, and to support all aspects of ant research. The authors are responsible for the content of their articles. All manuscripts are peer-reviewed. The editors reserve the right to reject manuscripts without stating their reason to do so.

Myrmecological News is in accord with article 8.1 of the ICZN (4<sup>th</sup> edition, 1999). Its purpose is permanent, public and scientific record and it is produced by printing techniques which warrant that identical copies are simultaneously obtainable.

Contributions recorded in "Zoological Record", "Scopus", and "Web of Science".

Publication date of Volume 27: 8.VIII.2018

## Contents

### Review article:

- Charissa DE BEKKER, Ian WILL, Biplabendu DAS & Rachelle M.M. ADAMS: The ants (Hymenoptera: Formicidae) and their parasites: effects of parasitic manipulations and host responses on ant behavioral ecology; doi: 10.25849/myrmecol.news\_028:001 ..... 1

### Original articles:

- Herbert C. WAGNER, Celal KARAMAN, Volkan AKSOY & Kadri KIRAN: A mixed colony of *Tetramorium immigrans* SANTSCHI, 1927 and the putative social parasite *Tetramorium aspina* sp.n. (Hymenoptera: Formicidae); doi: 10.25849/myrmecol.news\_028:025 ..... 25
- Barry J. HICKS & H. Dawn MARSHALL: Population structure of *Myrmica rubra* (Hymenoptera: Formicidae) in part of its invasive range revealed by nuclear DNA markers and aggression analysis; doi: 10.25849/myrmecol.news\_028:035 ..... 35
- David Emmanuel M. GENERAL & Perry Archival C. BUENAVENTE: Revision and redefinition of the crematogastrine ant genus *Tetheamyрма* BOLTON, 1991, with the description of a new species and the first description of the dealate queen (Hymenoptera: Formicidae); doi: 10.25849/myrmecol.news\_028:045 ..... 45
- Siiri FUCHS, Liselotte SUNDSTRÖM, Nick BOS, Dimitri STUCKI & Dalial FREITAK: Induced immune responses in *Formica fusca* (Hymenoptera: Formicidae); doi: 10.25849/myrmecol.news\_028:053 ..... 53
